Please add new claims 31-39 as set forth below. Please cancel claims 1-26 and

PATENT

Attorney Docket No.: MBM1420

28-30 without prejudice, as being drawn to non-elected inventions. Upon entry of the

present amendment, the status of the claims will be as set forth below in the listing of

claims. The listing of claims will replace all prior versions and listings of claims in the

application:

Listing of Claims:

Claims 1-26 (Canceled).

27. (Original) An optical irradiation device comprising a plurality of LEDs and a heat

pipe to cool the LEDs.

Claims 28-30 (Canceled).

31. (New) An optical irradiation device comprising one or more LEDs for emitting

radiation, the one or more LEDs thermally connected to a heat pipe, said piper

conducting heat away from the one or more LEDs.

32. (New) The optical irradiation device according to claim 31 further comprising a

thermal connector positioned between the one or more LEDs and the hear pipe.

33. (New) The optical irradiation device according to claim 31 further comprising a fan

or Peltier device proximate to the heat pipe.

34. (New) The optical device irradiation device according to claim 31 further

comprising a heat sink in thermal contact with the heat pipe.

35. (New) The optical irradiation device according to claim 33, further comprising a heat sink in thermal contact with the heat pipe.

PATENT

Attorney Docket No.: MBM1420

36. (New) The optical irradiation device according to claim 31, wherein the heat pipe provides a means for cooling the LEDs thereby providing for the one or more LEDs to be driven to produce more radiation.

37. (New) The optical irradiation device according to claim 31, further comprising a plurality of LEDs formed into one or more clusters.

38. (New) The optical irradiation device according to claim 31, further comprising a plurality of LEDs formed into one or more arrays.

39. (New) The optical irradiation device according to claim 31, wherein the one or more LEDs are thermally connected to two or more heat pipes.
